## SCHOLARSHIP OPPORTUNITY

Here at New York Talent, we know that Buffalo's Got Talent™! Western New York is teeming with talented actors, singers, bands, and dancers as apparent by the rising stars Chad Michael Murray from Clarence, John Stevens from East Amherst, Cute is What We Aim For from Buffalo, and Neil Haskell from Clarence. Our goal here at New York Talent is to find and develop our area's future rising stars and educate them about the entertainment industry, and inform them of how young talent can protect themselves from the many false promises and illegitimate claims of how they can reach stardom.

What it boils down to is hard work on the individuals' part. However, so many talented performers and models never reach their dream as they lack positive mentors and funds to develop their skills.

By providing scholarships to these students with so much talent and so little funds, we are able to send students to our classes to give them the opportunity to follow their dreams!

So how can you aid these talented performers?

You can donate any amount of money to contribute to one student's tuition here at New York Talent, and aid that student in achieving something they never thought possible.

You can choose to donate to a specific course of study, or you can let New York Talent distribute the funds to students as we see fit.

Attached you will find a list of courses and their descriptions for you to browse at your discretion. Also you will find attached amounts of donations and their correspondence with what will be returned to you for your gift.

Opportunity. That is what we are offering the many musicians, models, dancers, magicians, comedians, and other talented performers across Western New York.

Please take some time to browse the included materials and if you decide you would like to sponsor an individual, please contact Kimberly Buchner, head of our scholarship program at (716) 877-6565 or [kimberly@newyorktalent.org](mailto:kimberly@newyorktalent.org)

Thank you for your interest and we hope to hear from you!
